

Dear Sir

We have training modules that are tailor made according to the University Requirement (for credits in the Semester Examination) for Civil Engineering students in the 3<sup>rd</sup> Semester and 5<sup>th</sup> Semester.

**InternshipWala.com** is an online platform for Internships and Projects. The company is registered under the **Ministry of MSME, Govt. of India** and also accredited by **International Accreditation Services**. International Accreditation Service (IAS) provides objective evidence that an organization operates at the highest level of ethical, legal and technical standards.

The topics covered under the Building Construction and Disaster Management Internship Program is as follows

## Building Construction

### Topics are:

1. Introduction to Building Construction
2. Materials Used in Building Construction
3. Laying of Reinforcement
4. Building Construction Process
5. Common Steps in Building Construction
6. Major types of Building Constructions

7. Construction of Residential Building
8. Construction of Commercial Building
9. Construction of other Building Types
10. Type of Building Structures
11. Building Foundations
12. Types of Foundation
13. Elements of Construction
14. Roofing Systems
15. Waterproofing System
16. Building Services
17. Construction Technology
18. Civil Construction

## Disaster Management

### Topics are:

1. Introduction to the Training Program
2. Construction of Foundation of Buildings
3. Damage from Disaster
4. Causes of Earthquake
5. Cause for weakness of Building
6. Instrument for Building Construction

7. Quality of Construction Material
8. Safety in Building Construction
9. Selection of Building Site
10. Layout of Buildings
11. Construction of Foundation of Buildings
12. Concrete and Material Making
13. Method of RCC work
14. Rules for Brick Making wall
15. During the Earthquake Conductance of Load Carrier wall
16. Shape & Design of Disaster Prone Building
17. Shape and Types of Earthquake Resistant walls
18. Seismic Reinforcement of Loader walls
19. Repairing of Cracked walls
20. Seismic Belt Retrofitting of Buildings with Load walls
21. Protection of Light Roof Buildings from Cyclonic winds
22. Making a fireproof house with bamboo
23. Description of rods according to RCC
24. RCC frame structure Building
25. RCC description of rods in the frame
26. Non Structure hazards
27. Classification of damage to buildings after earthquake
28. Fire Prevention
29. Septic tank and soak pit

Doing internships is no longer a choice but a necessity for college students. A large number of universities and colleges across India have made internships a part of their curriculum. With more and more employers looking for candidates with prior work experience, internships are the way out for students. They help them gain valuable professional experience and also understand the corporate work culture.
